

Referencje

With Sprachcaffe Languages Plus, we had the opportunity to live a study trip in English.

The school offers various ways to learn English doing the courses and extra activities like visits of museums, kayaking, laser games etc....

Competent teachers make you feel comfortable during the language courses.

The school is located in the heart of Brighton with very good public transport facilities and it is near the West Beach Hotel.

The hotel is in front of the sea and this allows students to choose between several leisure time activities: Brighton Pier, cinema, shopping center, clubs and pubs.

The school staff ensure further entertainment organizing theme nights, games and parties open air or inside. The team is always available for students who need support.

Thanks to this experience, we have known people with different cultures, traditions and languages and we have built many friendships.
