Testimonial (mother tongue):

Since of a very young age I wanted to learn English and when I decided to come to Canada I was very happy. Geos has changed completely my life, because in 2013 I moved from Portugal to live in Switzerland where I don't have friends. In Geos I was able to find friends from all over the world and discover activities that now make part of my days. I love the Geos staff and ambience, every one live as a family and they are very friendly. Thank you for everything Geos and Canada.
